

CODEICX Overview

Transforming Ideas into Solutions

PRESENTED TO

International Professional Clients

PRESENTED BY

CODEICX Team

At CODEICX, innovation knows no bounds. Whether you're a startup with a groundbreaking idea or a large enterprise looking to stay ahead of the curve, we're here to help. Let's embark on this journey together and transform your ideas into reality.

About Us

CODEICX is a leading software development company based in the vibrant city of Taipei, Taiwan. **Established in 2024**, our company quickly positioned itself at the nexus of technology and global collaboration. Our diverse team comprises international talent from **Taiwan, the USA, and Malaysia**—industry professionals who collectively bring over **20 years of deep expertise** in software development.

We specialize in delivering innovative solutions tailored specifically for the **manufacturing, enterprise, and financial** fields. This wealth of global experience and focused industry knowledge enables us to offer top-notch services and cutting-edge solutions to meet the unique needs of clients worldwide.

Embracing Innovation: Your Ideas, Our Commitment

At CODEICX, we believe in the power of innovation. We understand that great ideas can come from anywhere and anyone. That's why we've built a culture that encourages and embraces innovation in every form.

Our Promise

Open Door Policy We welcome all ideas, no matter how big or small. Whether it's a disruptive concept or a simple improvement, we're here to listen and explore its potential.

Flexible Approach Our commitment to Proof of Concept (POC) is unwavering. We understand the importance of validating ideas before full-scale implementation. Our flexible approach allows us to tailor POCs to suit the unique needs of each project.

Why Choose Us

- **Agile Methodology**

Our agile approach enables us to iterate quickly and adapt to changing requirements. This allows us to deliver tangible results within tight timelines and budgets.

- **Collaborative Partnership**
Your success is our success

We view our clients as partners and work closely with them throughout the POC journey. Together, we'll turn ideas into reality.

- **Proven Track Record With years of experience and a diverse portfolio of successful projects**

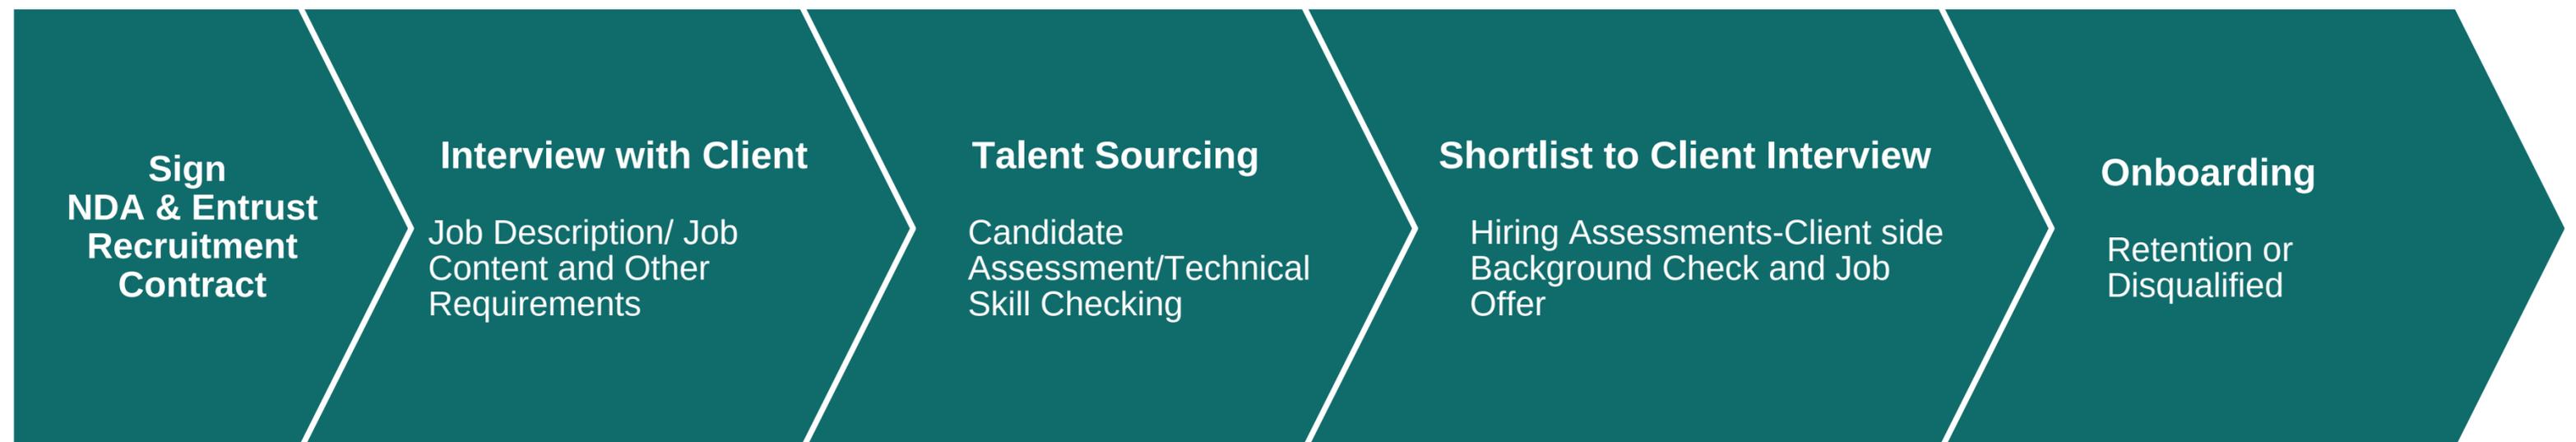

We have the expertise to bring your ideas to life. Trust us to deliver results that exceed your expectations.

Our Service

Dedicated Team Augmentation

- Global Technical Talent: Recruiting professionals from Taiwan, China, the US, and India.
- Domain Expertise: Expert consulting in enterprise, manufacturing, and finance.
- SLA: Qualified shortlist delivered within 3 weeks of contract signing.

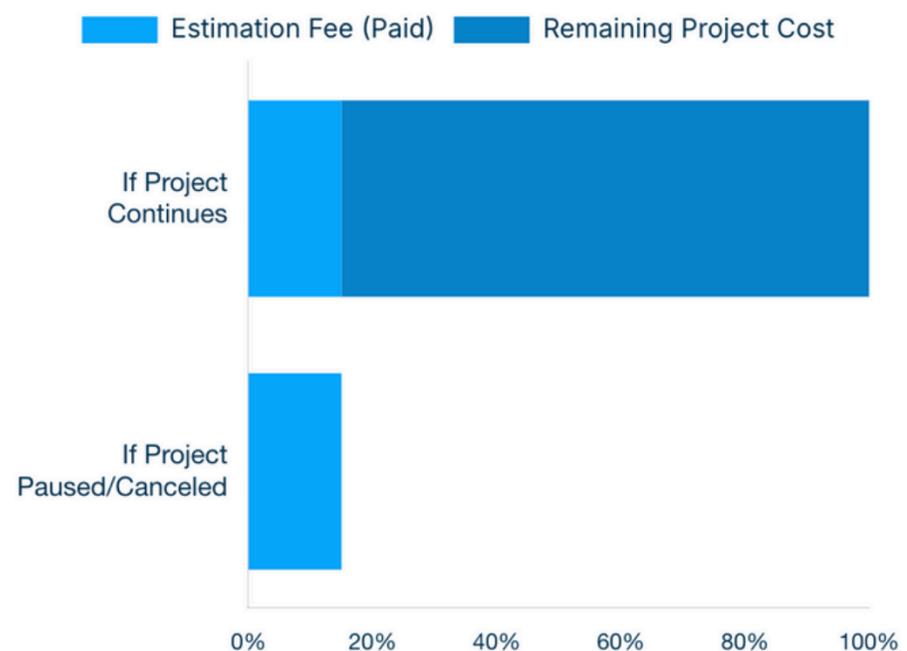

Project Outsourcing Bespoke Software Service

Our two-stage consultation model provides a clear, transparent project blueprint, including:

- Preliminary Estimates (ROM)
- Precise Quoting (SOW)
- Detailed Scheduling

Get a clear, transparent project blueprint using our two-stage consultation model, covering preliminary estimates, precise quoting, and detailed scheduling.

How the paid estimation fee is applied based on different decisions.

Your Investment, Applied Flexibly

We value your investment. The fee for the detailed estimation phase is not just a cost, but a flexible investment that depends entirely on your final decision.

✔ If the Project Continues

The fee paid for this stage will be **100% credited** toward the total project cost, becoming part of your project's startup capital.

❏ If the Project is Paused or Canceled

This fee will serve as payment for our in-depth analysis. You will still receive a complete assessment document that can be used for future planning or internal approvals.

Successful Case Studies
